

Zen Cart Performance module

Price: \$29.00

Product description:

Zen Cart Performance module greatly increases performance of your Zen Cart-based store.

How much speed do you get - some examples:

- **Large store** with 12 000 products and 1279 categories

Before performance optimization: 4.33 sec

After performance optimization: 0.64 sec

676 increase

- **Medium-size** store with 800 products and 23 categories

Before performance optimization: 2.23 sec

After performance optimization: 0.41 sec

212.38 increase

Zen Cart Performance module features:

- Greatly **increases performance**
 - Greatly **reduces server load**
 - **Supports unlimited number of products** /categories (supports large stores)
 - **Very easy installation**, 5 cut&paste steps necessary - start using in 5 minutes!
-

- Enable/Disable with few mouse clicks
- **Completely automated** - no additional support/management necessary
- No complicated code changes necessary (do it quickly - save time)
- **Multiple configuration options**(while everything working by default)
 - Predefined optimal Cache Time (how long page is cached) - 3 hours
 - Preset Cache Folder (detected automatically when available)
 - Predefined maximum Cache Folder Size (to prevent disk space problems) - 100Mb
 - Optional Client Optimization option (to prevent disk space problems)
 - and other

Recently added advanced features:

- CSS / JS files merging
- Unobtrusive JS and dynamic loading
- HTML minify
- CSS Tidy for CSS
- JSMIn / Packer
- GZIP for textual files
- Optimized .htaccess for Apache
- Client side caching for static files
- Server side caching for minified CSS / JS / HTML files
- CSS Sprites
- data:URI (IE7- hacks)
- Image optimization
- it **just works!**

How Zen Cart speed up module works:

It implements smart way of caching - storing and reusing parts of page that take much time to load/generate.

It gives much higher speed-up than standard shopping carts caching due to the smarter approach.

First time when page is accessed - it is generated as normal (no speed gain), when page is accessed second time - it is taken from cache.

Don't wait - speed up your store now!

Zen Cart Performance, Zen Cart Speed Up, Zen Cart Slow Download

Need experts help?

1. download:

1. module

2. Installation:

1. No, I will do it myself
2. 1 Business Day (+\$59.00)
3. 2 Business Days (+\$39.00)
4. 3 Business Days (+\$19.00)
