

osCommerce MSN Shopping Data Feed

Price: \$29.00

Product description:

osCommerce MSN Shopping Data Feed is a osCommerce contribution which assures the easiest export of your products into **MSN Shopping** - one of the best **Pay-per-Click** services.

Now all users are welcome to use MSN Search in a Bing search engine.

The new site, Bing, adds touches intended to make everyday Web searching a little less haphazard. Bing also tries to make it easier for people to buy things, book travel and find credible health information.

We recommend that you use Bing which allows users to search for products from multiple vendors and find their prices.

We strongly recommend that you use [Bing Data Feed](#) because of recent changes to MSN

MSN Shopping is dedicated to connecting stores with active online shoppers who are ready to buy. They offer several innovative packages designed to help you reach the right consumers at the right time. For more information about the marketing opportunities on the site, contact a MSN sales representative

With MSN you can promote your products and brand and manage your program: Web-based account access lets you quickly and easily update product information and monitor performance.

Increase your reach. Millions of shoppers use MSN Shopping to browse or search for the items they need. Inclusion in MSN Shopping allows you to increase your reach for consumers who are actively searching for your products. It can also be used as an extension of any online marketing campaigns you are currently running.

Showcase your brand. Merchandising and consumer programming continue to be a valuable part of the MSN shopping experience, for both MSN merchants and MSN consumers. In addition to standard advertising placements, we will continue to leverage valuable opportunities such as Seasonal Shopping to effectively

differentiate us from our partners — bringing the best of what our merchants have to offer with what is top of mind for MSN customers.
